

27 - 29 November 2026 | Dubai, UAE

# Updates in Breast Augmentation

Saturday, 2<sup>nd</sup> May 2026 | 13:00 - 14:00 (GMT +4)

## Learning Objectives:

By attending this webinar, participants will be able to:

- ✓ **Identify key challenges in secondary breast augmentation**, particularly those related to age-related changes in glandular and skin tissues, and understand their impact on surgical planning and aesthetic outcomes.
- ✓ **Understand tissue-preservation strategies in primary breast augmentation**, including innovative techniques designed to reduce invasiveness, minimize surgical trauma, and enhance patient recovery.
- ✓ **Evaluate advanced approaches to inframammary fold management**, including repositioning techniques, potential risks, and proven methods to prevent complications.
- ✓ **Refine decision-making in complex breast augmentation cases** through expert insights and real-world surgical experience.
- ✓ **Apply practical, evidence-based techniques** to improve consistency, safety, and aesthetic results in breast augmentation procedures.

## Speakers

Gianluca  
Campiglio

Nora  
Nugent
